

# Flat Wall Brush Angled 1583

Flügger Basic is a standard brush for the price-conscious craftsman. The brushes are suitable for painting jobs where the fundamental properties and economy are the priority.

## Properties

Facadebrush with non drop fibres, an ergonomic plastic handle ensures excellent grip. Flexible brush fibres that minimise splashing and distribute the material efficiently. Suitable for treatment of unbroken surfaces. Can be mounted on a Flügger extension shaft.

- Flexible brush fibres
- 1-component plastic handle
- Facade brush, Angle

## Use

Painting of facades and woodwork. Rinse the brush in water before use and work thoroughly into the paint. Store the brush in airtight packaging when not in use and avoid storing the brush in water.

## Application

Use it for all kinds of paint and wood stain. May be used in places which are difficult to reach eg. into the corners.

## Cleaning and Maintenance

Clean brushes using Fluren 59. Brush cleaner, Fluren 37 Basic cleaner or liquid soap. For non-aqueous paints, mineral turpentine can be used instead.

## Usefull Information

Disposal: Remove as much paint as possible from brushes before they are disposed of as small, combustible waste items.

## Good practise

Remove as much paint as possible from tools before cleaning. Do not pour liquid paint residue or cleaning fluid down drains. Clean the paint residue from the brushes right up under the ferrule. Paint residue under the ferrule and between fibres will coagulate and result in brittle bristles. Avoid straining the bristles during drying and store the brush dry.

## Technical Data
