

Flat Wall Brush Straight 1705

Flügger Pro are handmade quality brushes for the professional painter. The brushes have an ergonomic, natural wood handle. High end fibres ensure hiding power and a perfect finish.

Properties

Flatbrush with non drop fibres and an ergonomic beechwood handle. Flexible brush fibres that minimise splashing and distribute the material efficiently. Suitable for treatment of unbroken surfaces. Fully vulcanised brush head and stainless steel ferrule protect against water penetration, prevent discolouration and provide long life.

- Flexible brush fibres
- Sanded beechwood handle.
- Flat brush

Use

Painting and varnishing of doors, furniture and fixtures. Rinse the brush in water before use and work thoroughly into the paint. Store the brush in airtight packaging when not in use and avoid storing the brush in water.

Application

Use it on greater areas such as ceiling, wall and facades.

Cleaning and Maintenance

Clean brushes using Fluren 59. Brush cleaner, Fluren 37 Basic cleaner or liquid soap. For non-aqueous paints, mineral turpentine can be used instead.

Usefull Information

Disposal: Remove as much paint as possible from brushes before they are disposed of as small, combustible waste items.

Good practise

Remove as much paint as possible from tools before cleaning. Do not pour liquid paint residue or cleaning fluid down drains. Clean the paint residue from the brushes right up under the ferrule. Paint residue under the ferrule and between fibres will coagulate and result in brittle bristles. Avoid straining the bristles during drying and store the brush dry.

Technical Data

Produkttype	Brushes
Brush	Mix natural/synthetic
Shaft	Beechwood
Available Sizes	50 mm; 75 mm; 100 mm; 120 mm
Metal type	Stainless steel
