

Flat Brush Super Finish 1895

Flügger Premium is a line of all-round brushes for the quality-conscious craftsman. The brushes have a 2K handle for good grip. The fibres selected distribute the paint efficiently and ensure high productivity.

Properties

Flatbrush with super finish fibres, an ergonomic handle ensures a good grip. Flexible brush fibres for thick products, an excellent alternative to natural bristles. Suitable for treatment of unbroken surfaces. 2-component material selection and stainless steel ferrule prevents discoloration and provides long life.

- Resilient brush fibres
- 2-component handle
- Flat brush

Use

Painting and varnishing of doors, furniture and fixtures. Rinse the brush in water before use and work thoroughly into the paint. Store the brush in airtight packaging when not in use and avoid storing the brush in water.

Application

Use it for trimming on the walls and ceilings, doors, panels and furniture. Especially suitable for aqueous paint and lacquer.

Cleaning and Maintenance

Clean brushes using Fluren 59. Brush cleaner, Fluren 37 Basic cleaner or liquid soap. For non-aqueous paints, mineral turpentine can be used instead.

Useful Information

Disposal: Remove as much paint as possible from brushes before they are disposed of as small, combustible waste items.

Good practise

Remove as much paint as possible from tools before cleaning. Do not pour liquid paint residue or cleaning fluid down drains. Clean the paint residue from the brushes right up under the ferrule. Paint residue under the ferrule and between fibres will coagulate and result in brittle bristles. Avoid straining the bristles during drying and store the brush dry.

Technical Data

Produkttype	Brushes
Brush	Synthetic
Shaft	2-component
Available Sizes	25 mm; 35 mm; 50 mm; 70 mm
Metal type	Stainless steel
