

Fluren 59 Brush Cleaner

Product properties

Effective cleaner for brushes, rollers and other painting tools. Removes both aqueous and traditional paint, dirt and grime. Softens and prevents brush hairs from drying out. The product is bio-based and biodegradable.

- Effectively dissolves paint from brushes
- Softens and prevents brush hairs from drying out
- Prolongs the life of painting tools

Labelling

Product use

Suitable for cleaning brushes, rollers and other painting tools used for water-based or solvent-based paints.

Treatment

Remove as much paint as possible from tools before cleaning.

Leave the tool in the solution until all paint is dissolved.

Rinse with clean water.

Do not pour liquid paint residue or cleaning fluid down drains.

Application

Clean the paint residue from the brushes right up under the ferrule.

Paint residue under the ferrule and between fibres will coagulate and result in brittle bristles.

Avoid straining the bristles during drying and store the brush dry.

Please note!

Before use, see instructions and warnings on the packaging or read the safety data sheet for detailed information.

Environmental information

Remove as much paint as possible from tools before cleaning.

Paint and cleaning fluid must not be poured down drains, but collected and disposed of as environmental waste.

Empty and dry packaging should be sorted as plastic.

Storage

Cool, frost free and tightly closed

Protection equipment

Protect skin and eyes from splashes with suitable clothing, gloves and glasses.

Technical Data

Density (kgs/l)	1.0
pH	8.5
Mixing ratio	1 part : 3 parts water
Min. working temp. during application and drying/curing	Min. +10°C
Dilution	Water
